Section VII. Technical Specifications

Notes for Preparing the Technical Specifications

A set of precise and clear specifications is a prerequisite for Bidders to respond realistically and competitively to the requirements of the Procuring Entity without qualifying their Bids. In the context of Competitive Bidding, the specifications (*e.g.* production/delivery schedule, manpower requirements, and after-sales service/parts, descriptions of the lots or items) must be prepared to permit the widest possible competition and, at the same time, present a clear statement of the required standards of workmanship, materials, and performance of the goods and services to be procured. Only if this is done will the objectives of transparency, equity, efficiency, fairness, and economy in procurement be realized, responsiveness of bids be ensured, and the subsequent task of bid evaluation and post-qualification facilitated. The specifications should require that all items, materials and accessories to be included or incorporated in the goods be new, unused, and of the most recent or current models, and that they include or incorporate all recent improvements in design and materials unless otherwise provided in the Contract.

Samples of specifications from previous similar procurements are useful in this respect. The use of metric units is encouraged. Depending on the complexity of the goods and the repetitiveness of the type of procurement, it may be advantageous to standardize the General Technical Specifications and incorporate them in a separate subsection. The General Technical Specifications should cover all classes of workmanship, materials, and equipment commonly involved in manufacturing similar goods. Deletions or addenda should then adapt the General Technical Specifications to the particular procurement.

Care must be taken in drafting specifications to ensure that they are not restrictive. In the specification of standards for equipment, materials, and workmanship, recognized Philippine and international standards should be used as much as possible. Where other particular standards are used, whether national standards or other standards, the specifications should state that equipment, materials, and workmanship that meet other authoritative standards, and which ensure at least a substantially equal quality than the standards mentioned, will also be acceptable. The following clause may be inserted in the Special Conditions of Contract or the Technical Specifications.

Sample Clause: Equivalency of Standards and Codes

Wherever reference is made in the Technical Specifications to specific standards and codes to be met by the goods and materials to be furnished or tested, the provisions of the latest edition or revision of the relevant standards and codes shall apply, unless otherwise expressly stated in the Contract. Where such standards and codes are national or relate to a particular country or region, other authoritative standards that ensure substantial equivalence to the standards and codes specified will be acceptable.

Reference to brand name and catalogue number should be avoided as far as possible; where unavoidable they should always be followed by the words “*or at least equivalent.*” References to brand names cannot be used when the funding source is the GOP.

Where appropriate, drawings, including site plans as required, may be furnished by the Procuring Entity with the Bidding Documents. Similarly, the Supplier may be requested to provide drawings or samples either with its Bid or for prior review by the Procuring Entity during contract execution.

Bidders are also required, as part of the technical specifications, to complete their statement of compliance demonstrating how the items comply with the specification.

Technical Specifications

Item	Specification	Statement of Compliance
		<i>[Bidders must state here either “Comply” or “Not Comply” against each of the individual parameters of each Specification stating the corresponding performance parameter of the equipment offered. Statements of “Comply” or “Not Comply” must be supported by evidence in a Bidders Bid and cross-referenced to that evidence. Evidence shall be in the form of manufacturer’s un-amended sales literature, unconditional statements of specification and compliance issued by the manufacturer, samples, independent test data etc., as appropriate. A statement that is not supported by evidence or is subsequently found to be contradicted by the evidence presented will render the Bid under evaluation liable for rejection. A statement either in the Bidder's statement of compliance or the supporting evidence that is found to be false either during Bid evaluation, post-qualification or the execution of the Contract may be regarded as fraudulent and render the Bidder or supplier liable for prosecution subject to the applicable laws and issuances.]</i>

BIDS AND AWARDS COMMITTEE

RULES/GUIDELINES ON THE IMPLEMENTATION OF PUBLIC BIDDING THROUGH ELECTRONIC SUBMISSION AND RECEIPT OF BIDS

- 1. Legal Basis.** Proclamation No. 929 signed by the President on March 16, 2020 declared a State of Calamity throughout the Philippines for a period of six (6) months and placed the entire Luzon under Enhanced Community Quarantine (ECQ). Relative to RA 11469 or the Bayanihan to Heal as One Act signed on March 24, 2020, Joint MC No. 1 was issued by COA and GPPB to support the government's effort to mitigate, if not contain the transmission of COVID-19 through the expedient procurement of goods, infrastructure projects and consulting services needed by frontline workers. Given the exceptional circumstances brought about by COVID-19 pandemic, particularly the ECQ and suspension of mass transport services, both the Procuring Entities (PEs) and Bidders are finding it hard to continue with the conduct of procurement activities, and thus, the PEs are at risk exceeding the maximum calendar days allowed for specific procurement activities. In view of this, GPPB issued Resolution No. 09-2020, approving measures for efficient conduct of procurement activities during a state of calamity, or implementation of community quarantine or similar restrictions.

2. Definition of Terms

University – refers to Western Philippines University, the Procuring Entity (PE).

BAC – the Bids and Awards Committee of the Western Philippines University.

DBP – refers to Development Bank of the Philippines, the depository bank of the University.

TWG – Technical Working Group constituted by the BAC of the University tasked to assist the BAC in the evaluation of bids.

Document – refers to actual certificates, duly certified filled up forms, notarized legal papers and proposal among others, categorized as legal, technical and financial, the information contained therein provides the basis for evaluation of eligibility of the bidder.

Envelope – refers to a flat material, usually paper either brown or expanding that contains the legal, technical and financial bid documents, and required to be sealed and properly labeled prior to submission to PE.

Electronic File – or file refers to the electronic form of the document usually obtained by scanning the original document and saving it in Portable Document Format (PDF) file format.

Folder – refers to an organizational element in a computer operating system where several electronic files are placed or kept. A folder may be compressed or archived into a single file usually with password protection to secure its contents.

- 3. Coverage.** Based on the approved Annual Procurement Plan of the University (Annex C of 2016 Revised IRR of RA 9184), the BAC shall identify projects that will be allowed to be procured through public bidding through online/electronic means

4. Pre-bidding Activities

- a.** The Invitation to Bid to be posted in the PhilGEPS shall contain information relative to the project to be bid for information of the interested bidders, including the specification that the Western Philippines University as the PE shall allow the submission and receipt of bids through electronic means.

- b. Interested Bidders may seek clarifications about the project for bidding from the BAC through the BAC Secretariat through phone call, email or other electronic communication means.
- c. Bid documents shall be uploaded by the BAC secretariat in the PhilGEPS including the Instruction to Bidders. Interested bidders may download the documents to comply with the required bid documents. A fee for sale of bidding documents shall be deposited by the Bidder to the University Trust Fund Account at DBP. The scanned copy of deposit slip shall be sent by the bidder to the BAC secretariat prior to the opening of Bids.

5. Submission of Bids

- a. Each bid document in the first and second envelopes should be converted into electronic files using Portable Document Format (PDF). All electronic files included in the first folder shall be compressed/archived using WinZip or WinRar software with a password. A separate archived file for all electronic files of financial documents under the second folder shall also be generated with a different password.
- b. As the GPPB Online Portal is still under development, interested Bidders shall submit/upload their Bids for the specific project prior to scheduled date and time of opening of bids at any of the following: WPU Owncloud (www.wpu.edu.ph), Google Drive, or through email to BAC Secretariat (bac.secretariat@wpu.edu.ph). File names of Bid documents should follow the following format: <Project Identification no> <space> <company initials> <space> <folder1> (or <folder2>). Bidders shall send email message to BAC secretariat indicating the successful upload of the files and the link to access the Google Drive.
- c. Printed copies of Bid documents in two (2) sealed and properly marked envelopes should also be sent to the University through the BAC Secretariat by courier.
- d. Upon receipt of the archived files for the first and second folders, the BAC secretariat shall generate a Bid receipt page or a screenshot of the email communication from the Bidder indicating the official date and time of submission. All communications between the Bidder and BAC secretariat shall be saved for reference purposes.
- e. Bidding documents not in compressed archive folders and are not password protected, shall be rejected. However, said bid envelopes shall be accepted, provided that the Bidder or its duly authorized representative shall acknowledge such condition of the Bid as submitted. In such case, the BAC shall assume no responsibility for the misplacement of the contents of the improperly sealed or marked Bid, or improperly compressed or password-protected folder, or for its premature opening.
- f. Bidders may modify or withdraw their Bid at any time before the deadline for the submission and receipt of bids. Where a bidder modifies its bid, it shall not be allowed to retrieve its original Bid, but shall only be allowed to send another Bid equally secured, properly identified and labelled as a “modification” of the one previously submitted. The time indicated in the latest Bid receipt page shall be the official time of submission. Bids submitted after the deadline shall not be accepted.

6. Opening of Bids

- a. The BAC shall ensure the integrity, security and confidentiality of all submitted Bids.
- b. A videoconferencing facility shall be setup at the BAC meeting venue. Bidders will be invited to log in and participate in the online opening of bids.
- c. The BAC secretariat shall confirm receipt of bids through the generated Bid receipt page or record of received Bids.
- d. As in regular opening of Bids, Bids shall be opened one at a time beginning with the earliest to latest Bid submitted. Legal and Technical documents under the first folder shall be opened first for evaluation of eligibility of Bidders. When a Bidder’s turn comes, he/she shall be asked to disclose the password in person, or face-to-face through

videoconferencing or similar technology, or through telephone call. The archived documents shall be expanded/decompressed using the password to reveal the electronic files of documents.

- e. The BAC shall evaluate the eligibility of Bidders through the submitted documents using non-discretionary “pass/fail” criterion as stated in the Instruction to Bidders.
- f. All eligible Bids shall be forwarded to the TWG for post qualification evaluation.
